I worked the prelay pipeline route survey, working with Survey and ROV. We also did pre installation work for the risers and tie-in locations. This project was the LOGS line.

Sept./Oct. 1996

- I worked for Viosca Knoll Gathering Co. on the Interconnect at V.K. 817 on the tie-ins from the interconnect to the platform, the two (2) 20" pipelines and one (1) 16" pipeline.

Torch Pipeline & Diving Inc.	Superintendent DSV Midnight Dancer	May 1998/ November 1998
---	---	--------------------------------

Responsible for all operations of the "DSV Midnight Dancer"

J. Ray McDermott McDermott Underwater	Saturation Qualified Dive Superintendent/Supervisor	May 1974 / March 1998
--	--	------------------------------

Clinton Wright
Subsea Consultants /Diving /Inspection

Services		
----------	--	--

March 31, 1998

Retired: From J. Ray McDermott

Dec. 89 through March 98

Supervised all modes of Diving i.e. Surface Air, Surface Gas, and Total Saturation. Some of projects I have worked on but not limited to:

1998

- I worked on the Trinidad Amoco Pipeline projects, as a Sat Supervisor

1997

- I worked several minor surface gas and air projects. My primary work this year was as a McDermott Rep for subcontracted work on the Bridgeline 30" pipeline project and the Chevron 24" pipeline. I worked several phases of both projects including the laying of the pipelines the tie-ins and Hydro testing.

1996

- I worked various phases of the Shell and Texaco pipeline projects, including supervising a 500' saturation, on the shell 30" pipeline project.

Other projects I have worked on in the past 10 years as either a Superintendent or Supervisor including but not limited to:

Nov. 1993

- 750' Saturation project for Kerr McGee

Oct. 1993/ Jan. 1994.

- Agip FireDog jacket installation and recovery and reinstallation. The total project included 3 different saturation dives.

Clinton Wright
Subsea Consultants /Diving /Inspection

Jan 1993/April 1993

- Essar project in Bombay High, India. This project included air diving and several saturation dives in 200' to 300' of water.

1991/ 1992

- Exxon Mobile Bay project.

1990/1998

I have worked on several projects as a consultant representing McDermott on subcontracted projects. This included working with the Engineering Department on planning and estimating job proposals.

McDermott Underwater Services	First Class Diver Sat Qualified	May 1977 / Dec. 1989
--------------------------------------	--	-----------------------------

During my 13 years as a first class diver, I received extensive experience in all phases of offshore construction that included work on Lay Barges, Jet Barges, Derrick Barges and Dive Support Vessels. I have laid pipelines, set risers, jetted pipelines made up tie-ins, set jackets, burned piles from the inside and outside and worked on several hot taps.

I excelled as an underwater rigger; ditch digger and burner with Air Dives to 295', Gas Dives to 340' and Saturation to 750'. I also acted as an Air Supervisor from time to time.

J Ray McDermott	Diving Tender	May 1974 / May 1977
------------------------	----------------------	----------------------------

May 1974 / May 1977

Clinton Wright
Subsea Consultants /Diving /Inspection

After graduating from Diver Institute of Technology in Washington State, I relocated to Louisiana and was hired by J.Ray McDermott in May of 1974 as a Dive Tender. During this 3-year period, I worked extensively as a Lead Tender and Saturation Rack Operator. This gave me considerable experience in all phases of diving operations within McDermott on Lay Barges, Jet Barges, Derrick Barges and DSVs.

Lacombe Gunsmith & Machine	Owner Operator, Gunsmith, Machinist, Sales, Accounting and Purchasing	1980 / Present
---	--	-----------------------

1968 / 1974

Various business opportunities including, Jewelry Manufacture as well as some General Construction work, which gave me diversified experience as a heavy equipment operator and welder as well as a general laborer.

Boeing Aircraft Co.	Quality Control Inspector	1966 / 1968
----------------------------	--------------------------------------	--------------------

Assigned to Quality Control giving me considerable experience in various areas including Heat Treating, Machine Shop and the Tool & Die Dept.

1963 / 1968

- I worked in several areas including a laundry and a car wash, several fast food places, etc.
- I also worked in the logging industry for a couple of years in Washington and Oregon.

Summation:

During my 35 years of service in the offshore construction industry, I have made a genuine attempt to show respect for my fellow associates as well as those under my supervision, always with the best interest of the company that I represented in mind. It is my desire to continue working in the marine construction industry.

Clinton Wright
Subsea Consultants /Diving /Inspection

I have made every effort to keep up with new technologies and procedures within this industry. In addition to maintaining a desktop computer at my residents, I maintain a high quality notebook computer, digital camera, to assist me with all necessary documentation while away from the office.

Education
